

First of all, I would like to extend my safe wishes to you and your families during this time. I would like to introduce myself as the Manager of the Mentor Program that your child has been a part of this past school year. Your child has been mentored by either myself, Isy, Dylan, Brooke, or Teighan.

My team and I are displaced all over Canada and anticipate to be back once it is safe to do so (water, food, and air quality permitting). Because of the emergency evacuation, our in-school mentoring relationships with your child were cut short, but we would still like to connect with our mentees. We feel that it is important to reach out to you and your child in order to have some closure to this school year.

If you feel it would benefit your child, we would love to coordinate a phone call or Skype session with your child, just to see how they have been doing over the last month. It will only be a short call or Skype, again, to create some closure to whatever the Mentor-Mentee may have been working on. Of course, this will be at your convenience.

If you don't feel that this is something that you need at this time, please send our regards to your child and let them know that we are thinking of them. Please let them know that we are safe, and hope that you are safe as well. Tell them how much of a great time we have had with them this year and hope that they make some new friends, reconnect with old ones, and remember to care for themselves, their families and friends.

TJ and the team
